

**Help Wanted: Care for Dairy Cows Supplying On-Farm Creamery
Flying Cow Creamery – Rochester, WA**

We're looking for someone to milk and care for 12 dairy cows that provide the milk for our on-farm creamery. A nice house is available in a beautiful valley with a lively community of vegetable farmers.

This opportunity is flexible. It could range from minimal help with a rental arrangement to a complete lease of the dairy and creamery operations. We're open to different levels of involvement depending on interest and experience.
